SEPTEMBER
9 (Weds.)

CONTRACTING WITH THE NATIONAL LABS: An important and timely topic, this 3-hour workshop includes an in depth review of health, safety and environment contractor requirements as required by the Department of Energy (DOE) and National Laboratory sites. If you are performing work at or attempting to acquire work in the National Lab complex, this informative workshop will prepare you for the stringent requirements of “lab accepted” written programs. This workshop is written and taught by Dave Paoletta, CSP and industrial hygiene specialist who has developed written programs for DOE facilities, provided oversight and conducted multiple audits worldwide. This workshop will provide the tools you need to respond to, write and execute DOE orders on job sites. Who should attend: Project Managers, Estimators, Safety Directors, Superintendents. 8:00 am – 12:00 pm in AGC training room; \$55.00 for AGC members; \$75.00 non-members.

SEPTEMBER
18 (Friday)
